

SPIRIT WOOD DYE

250ml
1L

Liberon Spirit Wood Dye is an ethanol-based dye suitable for use on new and reclaimed timbers and may be overcoated with wax, oil or varnish.

- **Ideal for colouring dense hardwoods**
- **Ethanol-based formula**

PREPARATION

Ensure the surface is clean, dry and free from any existing finishes, wax, oil or grease etc. Sand thoroughly and remove any dust.

APPLICATION

Shake well before use. If more than one tin of dye is required to complete the work, mix the tins together to ensure a uniform colour. Apply one liberal coat of Spirit Wood Dye with a brush or cloth, allow the stain to penetrate, then remove the excess with a clean cotton cloth. When dry, Liberon Spirit Wood Dye may be finished with a varnish, wax or oil. Remove as much of the product as possible from the tools after use. Do not dispose of residues and washing water/solvents in the sink, toilet, sewer, bin, etc., in order to avoid discharge into the environment.

PRECAUTIONS

- Do not mix spirit-based dyes with water-based dyes.
- Do not mix with white spirit-based dyes.
- Application of a second coat is not needed and may lift the first coat.
- Spirit Wood Dye is not compatible with French polish and shellac-based sealers.
- Test products first to check compatibility and end results.
- Different types of wood produce different results.
- The colour bar may not be a true representation of the actual colour.

DRYING
TIME

1h

COVERAGE

250ml = 3.5-4m²

APPLICATION

Brush or Cloth

TOOL
CLEANING

Methylated Spirit
